PROFILE

Entrepreneur and BS Economics student from Batkhela, Pakistan, who learns by building. Founder of BazUp Media, an international social media management agency serving clients across the US, UK, and UAE. Has launched and run multiple ventures — from a jewelry brand to a dry fruits processing business — alongside remote client work, competition-stage AI product development, and continuous self-directed learning in AI, machine learning, and digital marketing. A quick learner, critical thinker, and problem solver who takes ideas from concept to execution independently.
